

REMSANA BUSINESS ACADEMY

COHORT 1: THE AI FOR BUSINESS OWNERS & FOUNDERS PROGRAM

**Stop learning about artificial intelligence.
Build an autonomous, AI-driven growth engine.**

"Helping businesses build systems that outlive the founder."

THE STRATEGIC SHIFT

Many businesses don't fail because they lack great ideas—they struggle because they lack the right systems, governance, financial discipline, operational efficiency, and scalable growth strategies. Traditional training programs leave you with a notepad full of theories. The REMSANA AI for Business Owners & Founders Program is completely engineered around automated implementation and measurable P&L outcomes.

By blending executive learning, technical implementation workshops, peer collaboration, and dedicated coaching, you leave with more than knowledge—you leave with automated operational infrastructure deployed directly into your business via the Remsana Mobile App.

THE IDEAL CUSTOMER PROFILE (ICP)

This elite cohort is exclusively restricted to **150 participants** who meet the following profiles:

1

Established Medium to Large Business Owners & CEOs

Looking to eliminate founder dependency and slash overhead costs through automation.

2

Growth-Stage Company Founders & Managing Directors

Who need institutional-grade governance, predictive financials, and rapid customer acquisition structures to attract VCs and backing.

3

Forward-Thinking Executive Teams & Senior Managers

Designated by their companies to lead internal digital transformations.

THE 4 EXECUTIVE SCHOOLS OF AI INTEGRATION

The Remsana Academy converts traditional executive education into active business growth. Each school operates specialized, automated services that solve critical operational pain points.

1. School of Compliance, Structure & Law

Build a Business That Is Legally Sound, Built to Last, and Structured by AI

A business cannot scale sustainably or attract venture capital without deep legal, governance, and compliance foundations. This school transitions businesses from the informal sector into compliant, investment-ready entities using AI-driven legal structures.

CURRICULUM: Corporate Governance, AI Legal Documentation, Corporate Structure, Regulatory Compliance, Risk Management, and Information Security Guardrails.

DELIVERABLES: Compliance Framework, Governance Manual, Risk Register, and Company Policies.

The Mobile App Utility Loop: Your entity data automatically configures your formal legal profile inside the Remsana invoicing engine. Enrolling triggers your **Premium CAC Business Registration Bundle** and unlocks **Instant Business Banking Access via ALAT Bank**.

2. School of Digital Growth & Sales

Build Predictable, Algorithmic Revenue Systems — Growth should never depend on luck

This school equips founders with modern digital marketing strategies, automated sales funnels, and generative customer acquisition frameworks to secure continuous marketplace momentum.

CURRICULUM: Digital Marketing Strategy, Generative Copywriting, Customer Journey Design, Sales Funnels, Automated Lead Generation, and CRM Management.

DELIVERABLES: Automated Marketing Strategy, Digital Sales Playbook, Customer Journey Map, and a Growth Dashboard.

The Mobile App Utility Loop: Your **Mobile Web Store Setup & CRO Optimization** launches a live storefront link that records sales entries automatically, streaming real-time pixel conversion data directly into your Remsana CRM module.

3. School of Financial Literacy, Payroll & Tax Compliance

Gain Absolute Financial Clarity and Automated Regulatory Compliance

Strong businesses are built on rigid financial management. This school helps business leaders eliminate mixed accounting records, track accurate unit economics, and avoid regulatory tax penalties via automated financial tracking.

CURRICULUM: Automated Financial Statements, Predictive Cash Flow Management, Budgeting, Mobile Payroll Systems, and Automated Statutory Taxes (PAYE, VAT, CIT).

DELIVERABLES: Dynamic Financial Dashboard, Automated Budget Template, Strategic Payroll Structure, and Tax Calendar.

The Mobile App Utility Loop: Syncs your corporate bank account ledgers directly to your **Mobile Ledger & Bookkeeping module** for one-click payroll runs and automated tax filing returns directly to FIRS/LIRS portals.

4. School of Operational Excellence & Scale

Build Systems and Autonomous Agents That Scale — Remove the founder bottleneck

Your business should not depend solely on you. This school focuses on operational efficiency, process optimization, workflow mapping, and agentic technology integration to achieve systematic autonomy.

CURRICULUM: Process Improvement, SOP Development, Workflow Mapping, Delegation Frameworks, Agentic Technology Integration, and System Automation.

DELIVERABLES: Core Operations Manual, SOP Library, Performance Dashboard, and an AI Scale Blueprint.

The Mobile App Utility Loop: Outputs actionable strategic tasks from your advisor straight to your mobile app interface, driving automated low-stock warnings and last-mile logistics calculations inside your billing flow.
